DSS Player Pro Release 4.0 Update Version 4.2.0

Description:

This update (P4UPC4EN.EXE) applies to **Release 4.x only** of the DSS Player Pro Dictation and Transcription Modules. To check the current version of your DSS Player Pro software, start your DSS Player Pro application then click on the Help menu → About...

Use the table shown below to check release and version of the DSS Player Pro module installed on your PC.

<u>Release</u>	<u>Current Program Version</u>
Release 4.0	Version 4.0.0
Release 4.1	Version 4.1.0

Note: This update will not upgrade DSS Player Pro pre-release 4. For customers who would like to upgrade their DSS Player Pro pre-release 4 software to Release 4 software, please contact your Olympus Authorized Audio Dealer.

Software bugs fixes and/or enhancements:

Software Module	OS	Change	Description
Both	All	New	Support Dragon NaturallySpeaking 8 as compatible Voice Recognition Software.
Both	XP	New	Disable the AutoPlay function of Windows XP when Mass Storage Recorder is connected.
Both	All	New	Display the DSS Player Pro software license ID in the Help menu.
Dictation	All	Change	Dictation Module "Create and Send Job Data" dialog will pop up an error message if illegal character is used.
Both	All	Change	Change the term for the Recording Mode to support future recorders. Modes are: "HQ(stereo)"/ "HQ(mono)"/ "SP(stereo)"/ "SP(mono)"/ "LP(mono)"
Dictation	2000/XP	Bug	A user who has limited rights and permissions to the local PC and change the download folder mapping to a network path might have problem starting the Dictation Module the second

			time around because the DictWnd.exe is still running after exiting the program the first time.
Both	All	Bug	When a firewall software such as the Norton Internet Security or anti-virus software is installed, DSS Player Pro failed to start in some cases.
Dictation	All	Bug	Could not send a message, if MAPI profile was selected and the message size was over 2.0 MB.
Both	All	Bug	DeviceDetector shows 2 DSS Player software program selected at the same time but none will start when a recorder is connected.
Dictation	All	Bug	After changing the number of folders enabled on the DS-4000 to 1 or 2 using DS-4000 Administration Program, the folders could not be renamed in the Dictation Module Device Manager. Also, If all 7 folders on the DS-4000 were enabled, Folder G could not be renamed.
Both	All	Bug	Fixed language and sentence structure in Dictation/Transcription Help.
Both	All	Bug	Could not change the status of a dss file that was created by other vendor recorders.
Both	All	Bug	Transcribe Status of the file properties dialog was wrong, before the file was transcribed.
Both	All	Bug	Fixed to display only the "click this dialog box" message, when DS-4000 was placed on the cradle in a mode other than NEW.
